

20/20 Plan

20% profit for your company

20% discount for your employees

Our asset buy-back program pays businesses for used, marketable equipment.

Comprenew's philosophy is to promote reuse over recycling whenever possible. Refurbishing and reselling used electronics extends their usefulness, minimizes environmental impact by reducing waste and manufacturing costs, and provides training and employment opportunities.

The **20/20 Plan** helps businesses by offering a 20% of retail value reimbursement for used electronics and a VIP card for a 20% Comprenew store discount for their employees on purchases of refurbished electronics.

All data is guaranteed to be cleared from all memory devices and a certificate of destruction is provided. Comprenew also offers logistics, asset tracking and tag removal, and secure storage options.

The 20/20 Plan

- **20% reimbursement for electronics based upon market value**
- **20% VIP discount for employees at Comprenew stores**
- **Guaranteed data security**
- **Assurance of environmentally responsible handling of unwanted electronics**
